

# Email Archiving with unlimited storage and retention at an affordable and predictable cost

Tap in to the power of a secure, state-of-the-art archiving platform to effectively preserve data, protect intellectual property, comply with data retention regulations, address discovery requests and cut IT costs. When combined with our full suite of email security and management services, SecureStore rounds out a comprehensive business-class email solution.

Automatically capture all sent and received emails in a secure cloud.

Search the full text of emails and 500 types of file attachments.

Support critical legal compliance regulations and discovery requests.

## Preserve Data

Archiving your conversations, contracts and other data makes all the difference.

For businesses, there has never been more data to manage and preserve. Protecting critical business information isn't only prudent; in many cases, it's mandatory for legal and regulatory reasons.

- ✓ *Quickly respond to audits & eDiscovery requests*
- ✓ *Recover lost and deleted files*
- ✓ *Protect intellectual property*

---

## Search and Discovery

With email archiving, every message is saved, indexed and searchable.

Find exactly what you need, whenever you need it. Bring focus and clarity to your business with fast and accurate search that illuminates dark data and makes it actionable.

- ✓ *Search millions of documents in seconds*
- ✓ *Make data accessible – and actionable*
- ✓ *Quickly respond to audits and discovery requests*

---

## Maintain Compliance

Regulated by PCI, SEC, GLBA, HIPAA, HITECH, SOX? You're covered.

Business data (and laws regulating it) are continually expanding. While the number and type of regulations vary by industry, nearly every business is required to maintain a complete and easy-to-access archive of ESI, to comply with government mandates, industry regulations and corporate policies.

- ✓ *Address government mandates and regulations*
- ✓ *Search and retrieve electronically stored info (ESI)*
- ✓ *Eliminate risk to the enterprise*

## Cost Effective

- Unlimited storage
- Unlimited retention
- No hardware or software to buy, install or maintain

## Easy To Deploy

- 20-minute implementation
- No one on-site
- Administrator & end user roles and access

## Easy To Use

- Intuitive interface
- Fast, accurate and reliable search
- Alerting functionality

## Key Technology Features

- ✓ *Unalterable, compliant WORM (Write Once, Read Many) storage*
- ✓ *Data Availability = 99.9999999% Service Uptime SLA = 99.99%*
- ✓ *Data Centers are FISMA, ISO 27001, SSAE-16, FedRamp and PCI-DSS compliant*
- ✓ *All deleted mailbox data is fully searchable, downloadable and in the archive indefinitely*
